

Product: LEB20

Pneumatic chamfering machine

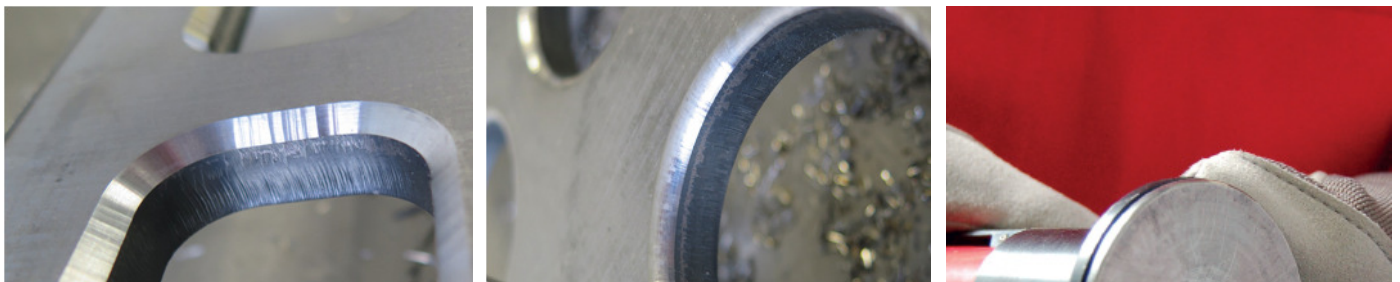

Item no.: 112 050 01

Application

For chamfering and rounding edges of steel.

Ideal for preparation for powder coating, varnishing or galvanizing.

Benefit

- Light construction
- Precise depth regulation—every 0.25 mm
- Rotating guide plate (bearing)
- Minimum bore diameter for chamfering—only 6.00 mm
- No vibrations thanks to the innovative cutter mounting system

Performance information

- | | |
|----------------------------|------------------------------|
| • Power: 270 W | • Weight: 0.7 kg |
| • Pressure: max. 6.3 bar | • Chuck: 6 mm |
| • Idle speed: 24'000 min-1 | • Vibration: EN ISO 28927-12 |

Accessories

KES R2 Radius cutter 2 mm

Item no.: 913 474 00

KES R3 Radius cutter 3 mm

Item no.: 913 470 00
